AK CityGuide

Create a positive experience for your residents and tourists by offering a comprehensive & interactive guide to the city.

Provide information, city maps and event listings to public services and local attractions. The kiosk's user-friendly interface, coupled with its sleek, durable design, makes it an ideal solution for public spaces, enhancing the accessibility of city information while promoting smart city initiatives.

Users can scan QR codes to take CityGuide with them on their mobile device

Collect user emails for prolonged engagement

Last Revised 2.16.2024
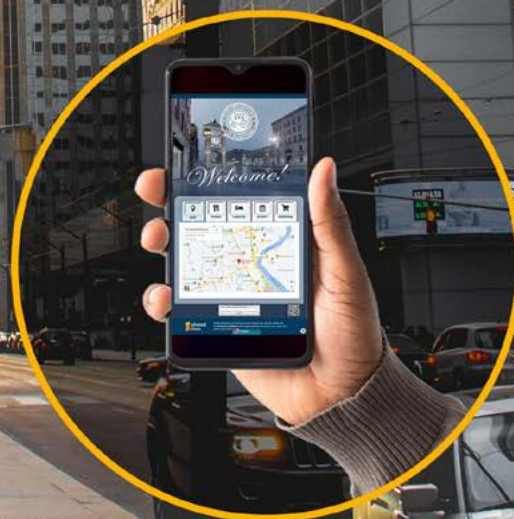

SOFTWARE

Customize the computer kiosk interface to match your visitors' needs and your organization's security requirements.
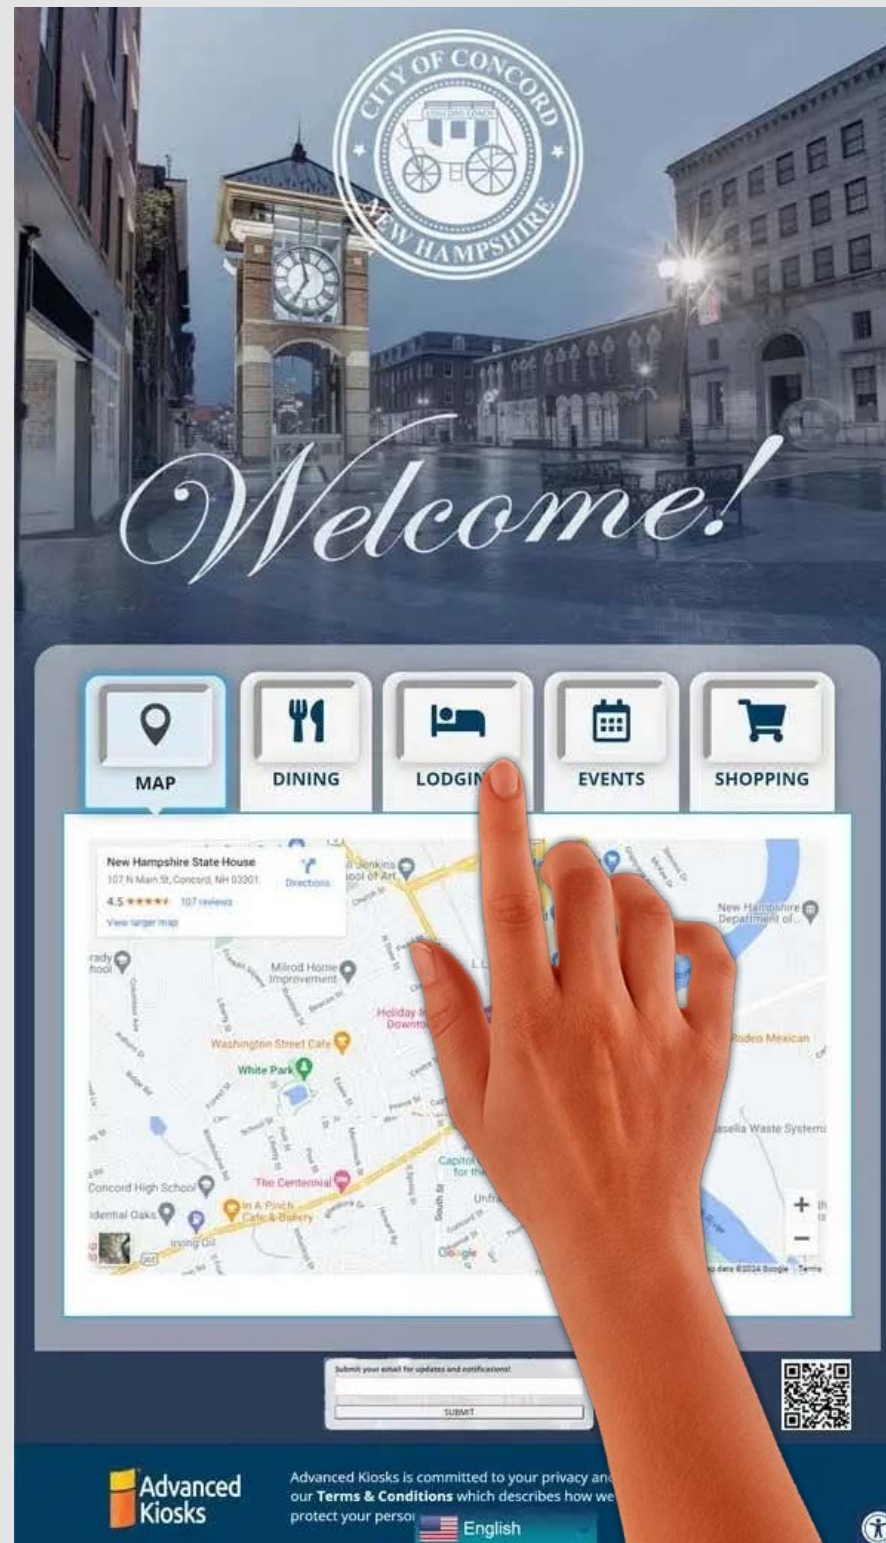

CUSTOMIZATION AND BRANDING OPPORTUNITIES: Cities and municipalities can customize the content and branding of the kiosk to reflect local identity and provide targeted information relevant to their community.

COMPREHENSIVE LOCAL INFORMATION ACCESS: Users can easily access a wide array of local information, including city maps, event schedules, public service directories, and tourist attraction details, all from a single point.

REAL-TIME UPDATES: Provide real-time updates on events, city announcements, and other vital information, ensuring users always have the most current data at their fingertips.

QR CODE FOR MOBILE ACCESSIBILITY: A standout feature is the inclusion of QR codes, which users can scan to take the information with them on their mobile devices. This means they can access city guides, maps, and other resources on the go, enhancing the convenience and continuity of their experience.

COLLECT USER EMAIL ADDRESSES: Collect user emails for extended engagement. Automatically send notifications when updating content.

MULTILINGUAL SUPPORT: Catering to a diverse population and international visitors, the kiosk provides multilingual options, breaking down language barriers and enhancing accessibility for everyone.

ACCESSIBILITY FEATURES: Including high contrast mode and increased text size options for visually impaired users.

HARDWARE

Our recommended kiosk models feature large, engaging interactive touchscreens that are hard to miss when passing by. The commanding height and large monitor invite users to interact.

MONOLITH

55" PORTRAIT

INDOOR / OUTDOOR

With its exceptionally large touch screen monitor, the Monolith demands your customers' attention. Dual screens available.

Full system approximately:

$37,000.00

MERCHANT MAX

32" PORTRAIT

INDOOR

The thin, sleek profile, large touchscreen monitor, and beautful LED light bar invite users to interact.

Full system approximately:

$14,500.00

Kiosk pricing includes multi-touch system with speakers, video camera, computer & all software setup. All product offerings include 1 year of Zamok Kiosk Software subscription (billed annually) with onboarding. Shipping & custom work not included.

FEATURES & BENEFITS

Features designed for the benefit of tourists, residents & city administration.

USER EXPERIENCE

Convenience buttons such as WiFi, Deliveries, Bulletin Board, Event Calendar, Latest News and Local Services and more are all suggested configuration options to optimize user experience.

WAYFINDING

Providing maps or directions to visitors so they can find their way is easy. Plug in static JPG maps or links to map programs such as Google Maps for added interactivity.

REALTIME CONTENT UPDATES

Content on the kiosk(s) can be updated and broadcast within moments, ensuring that the user is always getting up-to-date information no matter where they are consuming it.

ADVERTISING

Use this product to generate some extra income! There is ample opportunity throughout the interface for local businesses to place ads and increase their exposure.

TRANSLATION

Customize your own translation menu to include all the languages your users need most. The kiosk interface can be translated with the touch of a button. Hundreds of languages are supported.

ACCESSIBILITY

Fully customizable, the Accessibility menu provides support for people that need help. The menu can include screen and text enlargement, color adjustments, contrast changes and more.

COMPREHENSIVE TOURISM GUIDES

Build a business directory for tourists looking to find restaurants, shops, museums and more. Using the wayfinding feature, it's easy to point the kiosk user in the right direction.

QR CODES & EMAIL COLLECTION

A quick scan on their smartphone allows kiosk users to bring the CityGuide with them everywhere they go. Email collection extends user engagement, allowing the CityGuide to communicate long after the kiosk interaction.

AK CityGuide is locked down by Advanced Kiosks' **ZAMOK Kiosk Management Software**, giving you the power to do more with your self service interactive kiosks.

ZAMOK®
KIOSK MANAGEMENT SOFTWARE

- Customizable interface
- Remotely modify content from anywhere
- Manage all kiosks in one convenient dashboard
- Notifications sent to your cell phone or inbox in case of a problem
- Automated weekly reports with statistics
- Secure Kiosk access
