CREDIT CARD PAYMENTS

Interactive digital kiosks can offer an electronic payment system for those without available or secure access to technology.

MAKING PAYMENTS EASY

If you have a preexisting payment webpage, we can link to and lockdown that page for kiosk users to navigate the payment process.

With a credit card reader, your customer can autofill user information into the digital payment form, expediting the process.

PAYMENT HARDWARE

CARD READERS & SCANNERS

Different options can be added to expedite the payment process or even help auto-fill forms and applications. These include:

- Credit Card or Magnetic Strip Reader
- EMV Credit Card Reader
- Barcode and QR Code Scanner
- Drivers License and ID Scanner

Right: Ticketing Kiosk with EMV credit card reader and receipt printer.

CASH & CHECK PAYMENTS

Interactive digital kiosks can accept all physical forms of payment for those who prefer a more old-fashioned style of fund transfer.

CASH & COINS

Any US note or coin can be accepted with a 500 note capacity. All accepted cash is securely stored inside our triple-lock protected Vault system.

PERSONAL CHECKS

User enters check details during transaction and then deposits the check into a highly secure drop slot. Checks are processed after collection.

RECEIPTS: Every transaction the Kiosk Software processes (not including customer websites) prints a receipt.

PAYMENT HARDWARE

VAULT PAYMENT HARWARE SOLUTION

Featuring a highly secure tamper-proof **triple lock & key** security solution, the Vault Payment Solution will ensure that access is restricted to only those who are authorized to do so.

Right: Document Kiosk with Vault Payment Hardware Solution built into the steel enclosure.
